

Clever Integration: User Guide

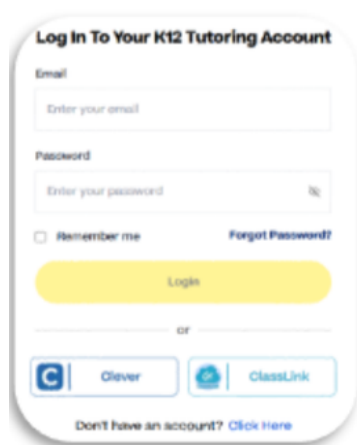

Overview and Purpose:

Clever securely connects students and educators to K12 Tutoring through single sign-on (SSO). Students can access K12 Tutoring by selecting the K12 Tutoring app from their Clever Portal or by clicking the **Log in with Clever** button on the K12 Tutoring login page.

Prerequisites:

Before integrating Clever with K12 Tutoring, your organization must have an active Clever account and a current K12 Tutoring agreement.

For more information or assistance, contact support@tutoring.k12.com.

Enable Clever Integration:

1. There are two ways to connect your district or school with K12 Tutoring through Clever:

Option 1: Accept a K12 Tutoring Invitation

1. The K12 Tutoring team can send an invitation to your district or school through Clever.
2. After accepting the invitation, your district's Clever administrator must configure the required data-sharing permissions. Refer to Clever's documentation for setup instructions.

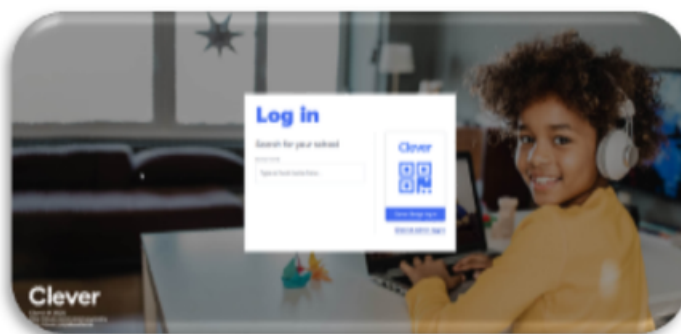

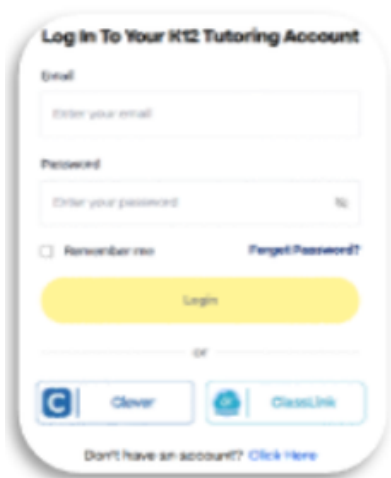

Note: Your Clever sharing rules should match the terms of your K12 Tutoring agreement to ensure that only authorized students' data is shared.

Option 2: Request the K12 Tutoring App

- 1.If your district already uses Clever, your Clever administrator can request the K12 Tutoring app.
- 2.The K12 Tutoring team will receive the activation request and verify the connection with your district before enabling access.

Accessing K12 Tutoring from Clever:

- 1.Districts can provide students with access to K12 Tutoring through the Clever Portal or by using the Clever Instant Login Link.

Troubleshooting:

If the Clever connection between K12 Tutoring and your school or district is not configured correctly, users may see the following Clever error message. If this occurs, contact your Clever administrator, teacher, or support@tutoring.k12.com for assistance.
