

How to Join Active Sessions

The Active Sessions section is designed for administrators to access live tutoring sessions. When this feature is enabled, simply click the “join session” link to observe a session in progress. When observing a session in progress, strive to be minimally disruptive to instruction. Follow the tutor's lead and avoid interrupting the lesson unless necessary.

Tutors should not allow anyone (including administrators) into ongoing sessions unless there are specific arrangements made to observe sessions.

Please contact your CSM if you would like to observe an active session.
