

Reports Overview

The Reporting page provides detailed data around the tutoring sessions, student schedules, and overall district performance. These reports are open for district administrators to view and download as needed.

Key Features

1. **District-wide Reports:** Generate reports on session usage, student attendance or engagement, and academic performance across the district.
 - **Student Detail Overview Report:** View or download a student roster report, outlining all rostered students and their details.
 - **Sessions List and Usage Report:** View or download a report by sessions including student, subject, time, session status and session amount.
 - **Individual Session Detail Report by Student:** View or download a report by student including student, subject, time, session status, and student attendance.
 - **Recurring Session List:** Coming soon.
2. **Export Functionality:** Export reports as CSV for further analysis or record-keeping.
3. **Your Customer Success Manager can include a training and answer questions on reports during a scheduled check-in call.**
